

National Qualifications Framework of Pakistan 2015

NQF Qualification Titles

Titles of the NQF qualifications/programmes indicate the qualification and programme type, field of study/discipline and provide a basis for national and international recognition. In order to control the ambiguity, HEC has outlined the basic names and has provided the criteria that how these names will be expanded to precisely describe the content covered.

Criteria for the Use of Titles/Nomenclature for the Degree

- 1. The degree may be termed/ named as per the level along with respective major field of study/discipline, not stream/specialization.
- A programme containing only one area may be termed as per its respective area of concentration, Bachelors in Mechanical Engineering etc.

Example: BS in Economics

 A programme with specialization in at least 25 percent of the main field, the specialization may be indicated in Brackets

Example: BS in Computer Science (Programming), Bachelors in Electrical Engineering (Telecommunication)

 A programme contains fundamental components of two fields of study with the percentage of 50-50, the qualification may be connected with "AND"

Example: BS in Economics and Political Science, BS in Physics and Mathematics etc.

 A major-minor programme that contains at least 25 percent component in other fields of study is named using the connector "WITH"

Example: BS in Economics with Mathematics.

The transcript and degree certificate will use the nomenclature of the qualification to describe the field (s) of study.
